

think inside the box

KeyWatcher key management system

KeyWatcher is the modular, scalable, integrated key control and management solution designed for interoperability with access control systems. Access to the box and to individual keys is under your complete control. You decide who has permission to remove each key, and with KeyWatcher's advanced communications capabilities, you always know who removed any key and when it was taken. Modular design means you can configure the exact components you need like card slots and lockers, with the ability to change modules where and when you need to. And KeyWatcher can grow as your needs grow.

the integrated access control solution

Smart Keys

- Identify users via identification chip

16-Key Module

- Holds the largest number of keys

Key-Pro III Key Management Software

- Enhances programming, and reporting.
- Email Alerts help track Smart Keys.

8-Key Module

- Great for key rings and larger keys

Illuminated Key Slots

- Makes retrieving and returning keys easier.

6-Key Module

- Ideal for Folger Adam and large key rings

Identity Access Options

- Include hand readers, swipe card, fingerprint readers and standard touchpad.

Card Module

- Thin slots are ideal for credit, debit, gas and proximity cards.

Single Locker Module

- Provides more capacity for weapons and other larger items which need to be secured with controlled access.

Dual Locker Module

- For items such as prescriptions, tools, wallets, wireless phones and more.

KeyWatcher is ideal for:

- casino and gaming industries
- correctional facilities
- healthcare facilities
- hotels and resorts
- conference centers
- government agencies
- multifamily buildings
- control rooms
- corporate buildings
- educational institutions
- automotive businesses

6 module KeyWatcher with 3 cabinets (linear configuration)
